

Aid & Relief Logistics

We're moving your goods, safely
and quickly, to those in need.

DB SCHENKER | Aid & Relief Logistics | Global | Jan 2024

Presentation

Aid & Relief Logistics

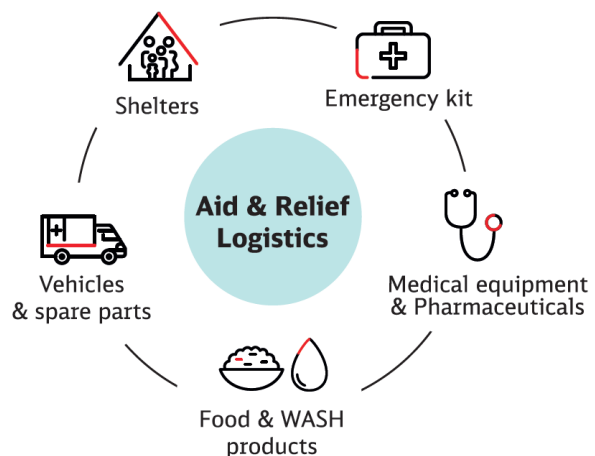

What we do?

Reinforcing its support of the humanitarian market, DB SCHENKER has decided to create a specific department called **DB SCHENKER | aid-relief logistics**.

Mission: perform flawless service and assure that all goods are delivered in time and safely.

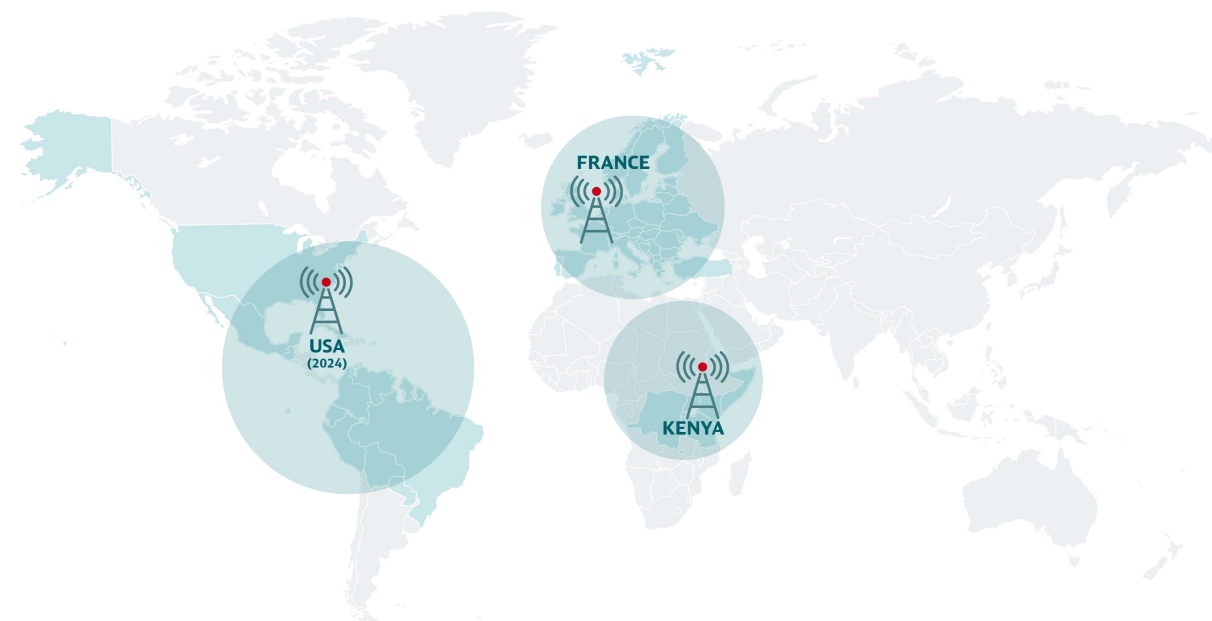

- Relying on a fully **dedicated structure**
- Network of **regional control towers**
- **Experts** in shipping sensitive cargo to difficult operating countries
- On behalf of **UN, INGOs, donors, governments or humanitarian suppliers**.

Commodities handled include:

What's our organization?

Our structure is organized based on **3 regional control towers dedicated to humanitarian aid needs** (Europe – Americas – Eastern Africa).

Each of them has a **regional expertise** with a **skilled team** regarding cargo movement, customs brokerage, transport capacities, road conditions and overall infrastructure capabilities.

Our solutions

Aid & Relief Logistics

Your unique point of contact

Air/Ocean/Road transportation

We combine local knowledge, dedicated customer service and global network expertise.

- Integration of your cost/time requirements
- Expertise in transport and logistics
- Study of your transport plan and optimization of flows
- Personalized and tailor-made solutions

Order Management System (OMS)

The OMS provides visibility throughout the supply chain :

- Unique contact
- Process standardization
- Global visibility
- Reduction of freight costs
- Time-saving

Charter Desk – Schenker Flight Services (SFS)

Via the inhouse service flight operations, worldwide access to capacity is guaranteed.

- Independence from commercial airlines and their flight schedules
- Guaranteed capacity access, even during peak seasons
- Reduction of transit time due to fast and easy pre-/on carriage through our European & US Trucking Networks.

Air Healthcare

We offer special solutions for sensitive cargo that requires special handling and monitoring along the entire transport chain within a temperature-controlled environment: +2°C and +8°C or +15°C and +25°C.

Your benefits at a glance:

- High-cost efficiency
- Passive or active cooling solution
- Global healthcare expert know-how and GDP certification
- Monitoring of temperature and many other parameters
- End-to-end online tracking
- Door-to-door solutions

Time Critical – AOG Desk

In case of emergency or disaster relief, a 24/7 manpowered desk takes the lead and finds the best and fastest solution to deliver your goods, by any means necessary (charter, hand carry, etc.) all around the world.
